ABOUT MYSELF

I'm Kamen Zhelev, a passionate programmer and game developer with a strong interest in creating both interactive games and dynamic websites. I enjoy working across a wide range of technologies and always strive to learn and improve.

I'm proficient in several programming languages including C++/C, C#, Python, Java, PHP, SQL, HTML, JavaScript, and CSS. I've also worked extensively with game engines such as Unity, Unreal Engine, and Godot, which I've used to develop and publish multiple games.

You can check out some of my projects here:

Games on itch.io (username: Burkana)

Web and code projects on GitHub (username: Burkana)
